NJFA MISSION STATEMENT:

The New Jersey Forestry Association is dedicated to the wise use, conservation and scientific management of the private and public forest resources throughout New Jersey in order to maximize their economic, social and environmental benefits for all our citizens, now and for future generations.

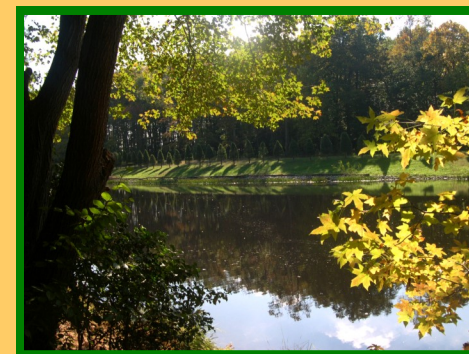

Such benefits include wood products, wildlife habitat, recreational opportunities, watershed protection, air purification, soil stabilization, temperature amelioration, windbreaks, urban buffers and landscape beautification.

New Jersey Forestry Association, Inc.

A non-profit tax exempt organization under IRS 501(c)3

Why Join NJFA?

If you are interested in the future of the forests of New Jersey, you are invited to join the NJFA. It is the only state-wide group that advocates scientifically and, ecologically sound management of woodlands to provide economic and environmental benefits to private landowners and to the forest community.

The New Jersey Forestry Association:

- Has taken the lead in representing landowners before the legislative committees that are debating additional regulations for forestry such as in the Highlands and Pinelands Commissions.
- Works cooperatively with the Division of Taxation to achieve fairness in the application of Farmland Assessment regulations to all lands in New Jersey.
- Sponsors more forestry educational programs in cooperation with the NJ Forest Service and Rutgers Extension than any other association or school in NJ.
- Acts as a spokesperson and advocate for woodland owners, conservationists, and others interested in maintaining our forests.
- Welcomes all people who share these values and concerns to join the NJFA.

Joining the New Jersey Forestry Association will assure that you are part of an organization that is working to assure our forests are protected.

NJFA OBJECTIVES

NJFA was organized in 1975 and incorporated in 1983 to promote forestry and forest management on public and privately-owned woodlands throughout New Jersey.

Our objectives Include:

1. To promote scientific management and perpetuation of New Jersey's forests, both private and public, to maximize their economical, social and environmental benefits.
2. To encourage and assist in improving forestry planning and operations by promoting the use of forestry professionals in the management of all New Jersey's public and private forests, and by providing educational and technical assistance programs and services to woodland owners.
3. To disseminate information to forest owners and related interests on the establishment, growth, harvesting, and marketing of forest products with educational and other issues related to forest ownership and management.
4. To serve as a resource, supporter and advocate for forest owners and the forest industry on public policy forestry issues.
5. To inform the public on the overall importance of scientifically managing New Jersey's forests in order to create and perpetuate a favorable and political climate for their future growth and sustainability.
6. To foster communications and cooperation with other organizations and agencies with similar objectives related to the conservation and sustainability of New Jersey's forests and the forest industry.
7. To foster communications and cooperation with other organizations and agencies interested in the health and sustainability of New Jersey's public and private forests.

NJFA Activities:

- Sponsor and co-sponsor forestry field trips, seminars, and workshops.
- Legislative activities include sponsoring and promoting legislation that will protect the rights of woodland owners.
- Produce the quarterly "New Jersey Woodlands" Newsletter.
- Co-sponsor the New Jersey Tree Farm Program and work jointly with public and private conservation groups.
